AMERICA MUST FEED ALLIES OR FIGHT THE KAISEMEN ALONE

--HERBERT C. HOOVER

Plain Talk Is Indulged By New Food Dictator to
Senators Who Oppose Food Conservation Bill

HOOVER'S VISIT FAILURE, HOWEVER

House and Senate Proceed Very Slowly to De-
bating Measure to Care for Wartime Food
Supply

(International News Service.)

Washington, June 19.—America must choose between feeding the allies and fighting Germany alone.

Herbert C. Hoover, food administrator, told members of the senate in informal meeting today in trying to remove from their minds some of the cobwebs of misunderstanding which have been handicapping the progress of the food control bill.

Hope, however, that Mr. Hoover's appearance would facilitate the passage of the food control bill was not realized to any great extent.

Mr. Hoover denied that the purpose of the bill is to set up a food dictatorship in the United States.

MILITIA MAY GO TO FRANCE IN HURRY WITHOUT TRAINING

WAR DEPARTMENT ORDERS ARE
TO MOBOLIZE GUARD UNITS
IN CITY ARMORIES.

(International News Service.)

Washington, June 19.—The probability of national guard troops being dispatched to France without the intensive training that was planned for them in southern training camps was strengthened today when Brigadier General Mann, chief of the militia bureau of the war department, issued orders to adjutant generals that guardsmen in large cities be permitted to mobilize in armories and there await orders.

GOVERNMENT PUTS 9 CAMPS IN SOUTH

(International News Service.)

Washington, June 19.—It is the intention of the department of war to place nine tented camps in the department of the southeast. This information was detailed by General Ernest A. Darlington of South Carolina, member of the general staff, who has been placed at the head of the staff to handle camp matters. He stated that six tented camps have been located, none of which is as yet in the southeast department, and it was the plan of the war department to locate ten additional camps and put nine of them in the southeast.

As soon as General Wood's recommendations have all been received the sites will be announced. During the next ten days the rivalry of southern cities for tented camp sites in which are to be trained the national guardsmen will be spirited.

**LIBERTY LOAN MANAGER
THANKS DAILY FOR WORK**

The following self explanatory letter is received by the Daily:

"I want to thank you not only on behalf of myself, but our publicity committee and the officers of the federal reserve bank for your splendid co-operation in giving publicity to the sale of Liberty Bonds."

"I have sent the name of your paper to Washington and I believe the government will appreciate your good work."

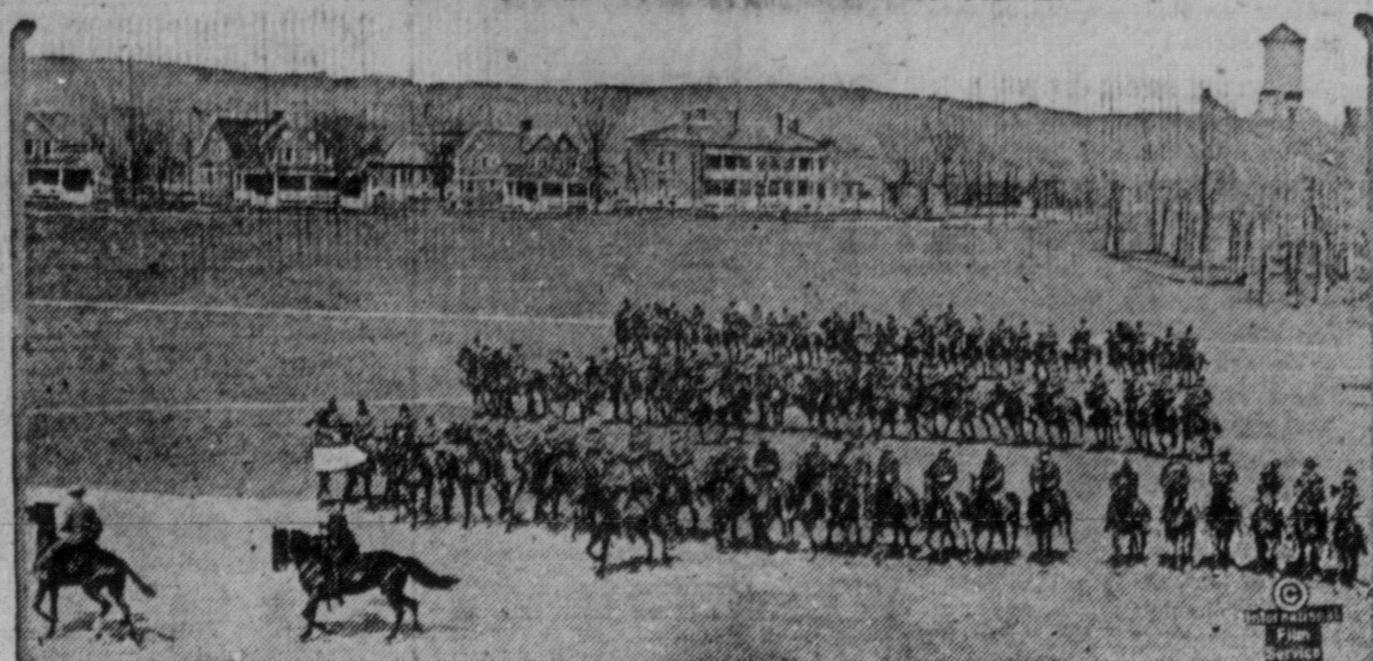

"In my opinion the work of the newspapers, such as you have done for the government, has been absolutely marvelous."

"Again thanking you I am,
Very truly yours,

SILAS CONFESSION
CLEAR ROBINSON
MURDER MYSTERY

CHIEF SUSPECT IN NEGRO KILLING MAKES CLEAN BREAST, IMPLICATING ANOTHER.

Jim Silas, a negro who was arrested about two weeks ago for the murder of a negro, Will Robinson, in the basement of Jack Young's livery barn, opposite the Hotel Hilda, confessed last night to the crime and implicated another negro named Lucian Smith, according to Sheriff Forman.

The negro gave no other excuse than that they were drinking and gambling when trouble arose between them, the sheriff said. Robinson was found in the basement, but in a room above was found a 38-calibre revolver with two empty cartridges and a broken beer bottle smeared with blood.

The floor of the room was covered with blood.

Robinson was employed at the barn where they were apparently gambling when he was knocked in the head with the beer bottle, and to make sure he would die, was shot twice. However but one bullet took effect. Afterwards the remains were deposited in the basement of the barn in order to conceal the body.

The trial of the two negroes implicated will be held at the next court.

Gompers Declares No Labor Shortage Exists

(International News Service.)

Washington, June 19.—There is no shortage of labor in this country at the present time in any general industry, according to a letter from Samuel Gompers, president of the American Federation of Labor, to Representative Raker of California, made public today.

(International News Service.)

New York, June 19.—The Sun printed the following cablegram from its London correspondent today:

London, June 18.—The publication of the proclamation of the new King Alexander of Greece, comes as a shock to England, France and Italy. The new and youthful monarch pledges himself to carry out "the brilliant policy of his revered father"—the notoriously pro-German Constantine, and uses the language of an absolute monarch. The press of the allied nations demands if it has been hoodwinked and if another German diplomatic trick has succeeded in the Balkans and if King Alexander attempts to follow any such course as Constantine that he be instantly ejected without ceremony. There also is a desire that the allies take direct control of the country, establish Venizelos and keep him there by force if necessary.

President Wilson himself is opposed to the creation of any new cabinet posts. It is understood to be his opinion, if it were possible, that it might be good idea to reduce rather than increase the cabinet for the period of the war.

The conflict between the federal shipping board and Gen. Goethals who was elected chief executive of its shipping corporation, has directed attention to the very grave danger of scattered power.

It is prophesied here that Hindenburg will make some terrific drives in the near future in hope of smashing his way to victory before American troops arrive in France in great numbers in order to further hinder America's successful operation of the war.

REDISTRIBUTION OF THE WAR
WORK OF THE COUNTRY WITH-
IN A FEW WEEKS IS SEEN.

(International News Service.)

Washington, June 19.—Redistribution of the war work of the United States will be forced in the next few months, possibly within a few weeks.

Only a sudden end of the war can prevent this. Present operations of the various departments of the government is far from satisfactory to officials. This is due to the retention with war conditions of red tape with which nearly all departments were clogged when the war began.

A proposed change does not mean any new cabinet posts. It will mean a general change in the running of a number of important departments and the co-ordination of the Council of National Defense and its numerous branches so that there will be co-operation instead of the existing friction and inefficiency in quarters now hopelessly deficient.

President Wilson himself is opposed to the creation of any new cabinet posts. It is understood to be his opinion, if it were possible, that it might be good idea to reduce rather than increase the cabinet for the period of the war.

New York, June 19.—The New York American today printed the following: "The disclosure is made from a letter received in New York from a high authority in Spain that King Alfonso, acknowledging the powers of discontented forces at work in his kingdom, has declared himself willing to agree to the establishment of a republic. Most astonishing of all is the report of the attitude of the king in his willingness to submit to a republic and, if it is desired, he himself become the first president."

LONDON HEARS KING DOES

NOT OPPOSE A REPUBLIC

(International News Service.)

London, June 19.—A republican movement in Spain is gaining in strength by leaps and bounds. A dispatch printed in the Daily Express today said:

"Spain finds herself at the parting of the ways. Military incidents which have recently occurred in Barcelona caused the national feeling, which was already high, to mount to fever heat.

"In addition to the political chaos, an economic crisis is rapidly developing. Although many arrests have been made and troops are on guard everywhere, it is whispered in certain circles that King Alfonso's opposition to the spread of the republican movement is inwardly passive.

"The situation is almost identical to that which developed in Russia. The army and the working people are banding themselves together and demanding the most drastic and widespread reforms."

(International News Service.)

Washington, June 19.—Washington this afternoon received the personal representatives of the world's newest republic, Russia.

Russia's mission to the United States, the first diplomatic body to be sent forth by the new Russian government, arrived here this afternoon on a special train from San Francisco.

Crowds as great as those which gathered to meet the missions of four of the other allied nations were present when the train rolled in. Secretary of State Lansing was the first official of the United States to greet the mission and pay them the respects of the United States. Chancellor Polk of the state department and a corps of naval and military attaches were also present to greet the Russian party.

PRESIDENT WILSON'S FIGHT AGAINST FOOD EXTORTION.

"To protect the people from extortion," is the announced purpose of the food control legislation now before congress, as outlined in a letter by President Wilson who is personally leading the fight against the speculators.

The American people should congratulate themselves that the executive has made the fight for food regulation his own. It is to be a grueling contest, with the democratic party divided among itself, and with some of the leading southern senators standing shoulder to shoulder with the reactionaries. They hail the Lever-Chamberlain bill as a measure designed to provide a "food dictatorship," whatever that may be, the implied implication being that it is something autocratic and arbitrary.

Getting down to brass tacks, the control of the food supply in the interest of all the people is not a dictatorial action. It is democracy in the broadest sense, a recognition of the rights of the masses as opposed to the rights of the few. It means that the law of supply and demand is to be allowed to rule, that efficiency is to be broken to harness to draw a part of the burden of the war. The highest aim of the law is to remove from the hands of speculators the power to corner food supplies, to regulate food prices and to dole out here and there a parcel of meat and bread to those who are able to pay more than a fair price for the necessity.

Congress seems to have never questioned the right of the speculators to control food production wherever and whenever they could. Why should it question the right of the government to do so, especially in the time of war?

The burden of existence will cripple American industry if the trade extortions are allowed full sway. Children and women will cry for bread. Gaunt hunger will clutch even strong American manhood by the throat and minimize its usefulness as a positive fighting force against German barbarism and inhumanity. President Wilson knows this, and the millions of Americans who have no desire to profit by the war know it. That is why the president of the United States has turned his hand to the duty of driving the money changers from the marts of trade.

CLOSING THE BREWERIES.

The Brooklyn Citizen has been growing unduly alarmed since war was declared over the onward march of Sunday the Citizen declares in a 36-point headline: "Closing the Breweries is a Bad War Step."

The article states that the brewers last year used 65,000,000 bushels of grain in the United States, or about one and one-third per cent of the entire crop. Of this about 57,000,000 bushels of brewers grain and malt sprouts were recovered which were fed to cattle. The conclusion is drawn that the prohibition of the manufacture of beer will reduce the production of brewers waste which is fed to cattle and thus the milk supply of the country would be reduced fully 20 per cent and the price of milk would go to 30 cents per quart! The usual picture of the babies of the cities suffering from want of milk is drawn at the conclusion.

What a delightful sophistry! It was only a few years ago that we

heard the argument that to close down the breweries and distilleries would mean the ruin of the farmers because the farmers sold such a large percentage of their grain to be made into beer and spirits. Now we are informed—since the short grain supply of the country has caused alarm—that the brewers use only 65,000,000 bushels of grain. Which one are we to believe?

So far as the use of brewers grain for feeding is concerned, we have been reliably informed that it is practically valueless. The percentage of food left in the grain is very small.

The closing of breweries and distilleries would be an excellent war move. We have a motto in this war which is "Business as Usual," and aside from the economic phase of prohibition there is also the moral side. The nation cannot go about conducting its business as usual with the taint of beer and whiskey on its breath. Beer and business won't mix. The war calls for a cool head.

PRINCE HENRY AND PERSHING.
Before his departure from Paris, news dispatches tell us, Gen. Pershing was shown the tomb of Napoleon, where he kissed the sword of the Little Corporal. Up to that time last week the sword had not been touched by mortal hands since the days of Louis Philippe.

The touching act of the American soldier reminds one of the visit of Prince Henry of Prussia to the United States some years ago. When Washington died he left specific instructions that his sword was not to be drawn save in defense of America. When visiting the tomb of Washington, the stupid Teuton was shown the immortal sword and horrified spectators by starting to draw it. He was stopped at once.

Pershing would never have been guilty of such an act of boorishness and we may be sure that the French, looking upon the khaki-clad warrior as representative of their American deliverers, invited him to clasp the sword of the great leader of the "old guard." Such is the difference between a member of the German royalty and the American democracy.

According to the news today from Spain we may soon expect to see signs like this tacked all over the billboards and trees of Spain: "Vote for Alphonse for President. He's the People's Candidate."

And maybe they'll have signs like this all over Greece: "Vote for Venizelos for President."

An unkind exchange suggests that Europe has already discarded two kings and two queens and when Alfonso is gone they'll have a full house.

Just In Passing

McPHERSON BOYS ARE BONNY.

"The men who are taking the training to become officers in the United States army at Fort McPherson are as clean a bunch of young fellows as I ever saw," said Bayless Garner of Florence, who passed through here on Saturday en route home. "I was unlucky, as I was taken down a week or so ago with malaria and because of this the authorities in charge of the camp gave me an honorable discharge. The boys are working awfully hard to get their commissions. They will have to continue their studies for months, even after they get into the army. When they get to Europe they will then have to learn an entirely different style of warfare as the European fighting differs entirely from the American method."

ALL ABOARD FOR MARTHA.

"I am going to leave tonight for Martha," Editor H. D. Harkreader of the Daily told the "Just in Passing" man. "Martha is a little village in Wilson county, Tennessee, about half a hundred miles from Nashville and a few miles from Lebanon. It's where I first saw the light of day. It isn't an opera, but a town, and it is where Congressman George Huddleston, Lon McFarland and H. D. Harkreader were born. Rather famous sort of a place, you see. They grow mighty fine fried chicken, sweet potatoes and folks in that neck of the woods. I am looking forward to my vacation with a great deal of pleasure."

LOWERING THE FLAG.

"I have adopted the custom of half-masting the big American flag in Wheeler Park upon the death of any prominent Albany citizen," said Maj. Chas. Bassett today. Major Bassett raised the funds for the purchase of the flag. "So long as I live I expect to see that the flag is lowered as a tribute to our leading citizens when they die," said Major Bassett. "The city owes this tribute of respect

A HELPFUL CONFESSION

"Can Eat Any Food Now"

Mrs. B. writes: "Had suffered for years with stomach disorder. Could not eat without great distress, lost weight and was run down. Feared it was ulcerated stomach."

"Fortunately I secured a sample of HEMO, which seemed to satisfy my hunger, and was retained without distress. I immediately bought a package and started to take it regularly. I continued to take it once a day and improved steadily. After one year I have gained 33 pounds of good solid flesh and can eat my food with no distress. I can recommend HEMO to all sufferers from stomach or digestive disorders."

You should try HEMO today. Find out for yourself how much it will really help you. It is so easy to prepare. Makes a delicious food drink by simply adding water. Try a 50c package with our guarantee of satisfaction.

What Is Uric Acid?

THE CAUSE OF BACKACHE, RHEUMATISM, GRAVEL AND SUDDEN DEATH.

Ever since the discovery of uric acid in the blood by Scheele, in 1775, and the bad effect it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. Because of its overabundance in the system it causes backache, pains here and there, rheumatism, gout, gravel, neuralgia and sciatica. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and completely eradicate this uric acid from the system. "Anuric" has proved to be 37 times more potent than lithia, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send to Dr. Pierce of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., for a pamphlet on "Anuric" or send 10 cents for a trial package of "Anuric Tablets."

If you feel that tired, worn-out feeling, backache, neuralgia, or if your sleep is disturbed by too frequent urination, go to your best drug store and ask for Doctor Pierce's Anuric Tablets.

Doctor Pierce's reputation is back of this medicine and you know that his "Golden Medical Discovery" for the blood and his "Favorite Prescription" for the ills of women have had a splendid reputation for the past fifty years.

Doctor Pierce's Pellets are unequalled as a Liver Pill. One tiny sugar-coated Pellet a Dose. Cure Sick Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels.

DIZZY SPELLS

Relieved After Taking Two Bottles Of Cardui, Says Tennessee Lady.

Whitwell, Tenn.—Mrs. G. P. Cartwright, of this place, writes: "About four years ago the dizzy spells got so bad that when I would start to walk I would just pritly near fall. I wasn't past doing my work, but was very much run-down."

I told my husband I thought Cardui would help me, as a lady who lived next door to me had taken a great deal, and told me to try it. This was when we were living in Kentucky.

My husband got me a bottle and I took it according to directions. It helped me so much that he went back and got me another bottle. I got a whole lot better and just quit taking it. I got over the dizzy spells...I took no other medicine at that time nor since for this trouble. No, I've never regretted taking Cardui.

I felt just fine when I finished the second bottle."

Pure vegetable, mild and gentle in its action, Cardui, the woman's tonic, may be the very medicine you need. If you suffer from symptoms of female troubles, give Cardui a trial. All druggists.

BED CROSS BALL

AT COLONIAL HALL.

A gorgeously staged ball was given last evening at the Colonial Hall by the Red Cross society of Decatur. Patriotic colors were the decorative motif. Draped from the central columns was an immense flag and each wall panel was centered by the Red Cross insignia and American flags. The guests were met by Mesdames Frank Lide and W. E. Crawford. The grand march was led by Miss Brookie Gibson and Milton Lipscomb, Miss Gibson wearing the Red Cross costume. But the event of the ball was the solo dancing of little Miss Henry of Athens. Her toe dancing was worthy of a professional in technique and finish. For this she wore a ballet costume of white tulle. In another solo dance she might have been the spirit of dawn, so diaphanous did she appear. Her costume was fashioned from flesh colored veiling. This was a most artistic dance, requiring abandon and grace, and was well chosen by this wonderful sprite. Too much cannot be said of the splendid management of Mrs. Joseph Bradley of Huntsville, who had charge of the floor.

Among the guests from Huntsville were Mrs. Tracey Pratt, who wore a Red Cross costume; Mrs. Chase, Mr. and Mrs. Bradley, Misses Neida Humphrey, Genevieve Yeatman, Mildred Wells, Webster, Roland, Alice Adams, Thos. Waits, Harvey Daniel, Gordon Frierson. Among those from Courtland were Misses Nannie and Annie Tate Ashford, Ballentine and Hall, Dave Martin; Mrs. Frank King, of New York.

The Red Cross of Albany was represented by Mesdames R. E. Sanders and W. J. Cunningham.

Boys Must Go To Sunday School If They Swim At 'Y'

The Y. M. C. A. purposes to give all the boys from 12 to 16 years, inclusive, who live anywhere in the Albany-Decatur district, swimming pool privileges twice weekly for an indefinite period, based on three conditions: First, all applicants for this privilege must have attended the Sunday school of their choice for four to five Sabbaths in succession and be on time. Second, they must have been reasonably familiar with the Sunday school lesson. Third, their deportment must have been good.

The decision on these three points rests with the Sunday school teacher of the boys and approval by the superintendent of the applicant's Sunday school. Non-transferable cards will be issued to the successful contestants which, when presented to Secretary Thompson of the Association, will be duly honored by him. In a word, the boys must "make good" for a month at their Sunday schools and then the Y. M. C. A. will "make good" on the privilege of its big swimming pool. Any white boy, regardless of who he is or what he is, and regardless of membership in the

Association is cordially invited into this contest. Any exceptions to these conditions must be based on "sickness in the family, absence from the city on important business, deaths of relatives, etc." All such details are to be determined upon by the teachers of the Sunday schools and their superintendents.

For the month of June the Association authorities will accept the record of all applicants as it is recorded in their respective Sunday schools for the month of May. In case boys have lost their chance to compete because of having missed to many Sunday school lessons, Secretary Thompson has provided means by which they may remove their disabilities. Directions as to how to do this may be learned on application to the several Sunday school teachers.

The swimming pool plan is one that the Y. M. C. A. has on foot to help care for the boys during the strenuous times of war, when parents are busy with Red Cross work; soldier comforts, food supplies and the man-other new problems incident to the war.

Red Cross Service For Wednesday Eve-

Will Be Held at Westminster Presby-
terian Church.

At the Westminster Presbyterian church, on Wednesday evening at 8 o'clock, will be given the story of the Red Cross society, thus helping to celebrate Red Cross Week in our city, which has been proclaimed by the president of the United States. Several members of the local chapter will take part in this service, every member of the chapter, as well as all others who are interested, urged to be present. Special patriotic music will be a feature of the meeting.

SPECIAL RED CROSS DIVIDEND

One of the most interesting and unusual developments of the Red Cross campaign to raise \$100,000,000 during the week of June 17th, is the action of corporations in declaring special Red Cross dividends. The procedure is to notify shareholders of the declaration of this dividend and to request their permission to turn it into the nation's gigantic humanitarian fund to alleviate suffering among our allies and to prepare to meet the medical needs of our own men.

H. P. Davidson, chairman of the Red Cross war council, in a letter to Cleveland H. Dodge, chairman of the council's finance committee, points out that this action by corporations is considered by the war council as of the greatest importance. At the same time Mr. Davidson urges that there be not the slightest suggestion of coercion in presenting this matter to shareholders.

"While nothing is more important to the work of the Red Cross than the financial support which might come to it through such means," says Mr. Davidson, "nothing could be more unfortunate than that the Red Cross should receive from any direction moneys that are grudgingly given, or worse still, given under any suggestion of coercion. We feel that we should emphasize this, as we fear that very ill effects might attend even a successful financial campaign were it not made clear that all stockholders who are to receive a special dividend should thoroughly understand this position of the Red Cross with regard to contributions of this nature."

A copy of Mr. Davidson's letter will be sent to all shareholders by corporations assenting to the plan. This making the position of the Red Cross clear, will, it is thought, remove from the action of the corporations even the remotest suggestion of pressure.

AMERICAN MISSION TO RUSS HAMPERED

NEW AND POWERFUL INFLUENCE
OUTSIDE OF GOVERNMENT ARE
AT WORK.

Petrograd, June 19.—Obstacles have begun to spring up before the American mission headed by Elihu Root, that came here to help the Russian government solve political problems. But these difficulties do not come from the government as represented by the coalition cabinet. It was stated today there are powerful groups in Russia outside the government that look upon the American mission with a suspicious eye.

W. Decoration at Hartselle.

Hartselle, June 19.—(Special)—
Judge W. W. Brandon, of Tuscaloosa,
who delivered the principal address
here Sunday prior to the ceremony
of the unveiling of the monuments
over the dead of the W. O. W., re-
turned to his home today. While
he visit of the Judge had no political
significance, he was not averse to dis-
cussing the gubernatorial race, say-
ing he would begin active campaign in
August and expected to tour the state
and visit every beat in every county
in a Ford car. The Judge has many
friends in this county, especially in
Hartselle, and will, no doubt, receive
a large vote in Morgan. Judge Bran-
don expressed the conviction that all
of the entries with the possible ex-
ception of one, had already been an-
nounced.

Mobile Negroes Will Be Guarded During Trial by Federal Soldiers

(International News Service.)

Mobile, Ala., June 19.—When Fisher Brooks and Albert Sanders, negroes, leave the jail at Montgomery for their trip to Mobile, where they are to be tried on the charge of murdering Mrs. R. C. Hess, of Jacksonville, Fla., they will be accompanied by military guards composed of soldiers now in the federal service. Governor Henderson has perfected arrangements whereby the soldiers will not only accompany the negroes, but will remain while they are on trial.
